BERBERIS THUNBERGI PLURIFLORA ERECTA (NEW TRUEHEDGE COLUMNBERRY)

Sold under U. S. Plant Patent 110. Often called the "READY MADE HEDGE". May be used for formal hedge, individual specimens, window boxes, and similar plantings without pruning and without any sacrificing of leaves or beauty. Often mistaken for Boxwood on account of its extremely formal shape and its dense, glossy foliage being decidedly more dense, more upright, and more richly foliaged, than common Thunbergi.
